Preparedness

May 18th - 2:00 to 4:00 PM - GTC West 2006
Sacramento Convention Center - Room 313

This is your opportunity to learn firsthand the status of DTS priority projects and speak with the project managers and key technical staff. In addition, you can meet DTS customer representatives, account managers and the executive team.

Don't forget! You are also encouraged to visit us on the exhibit floor. DTS has two booths this year: one on the main aisle (1009), and another in the GTC Solution Central (SC310), where we will demonstrate the value of the Department's new Server Based Computing Service available this summer.
